

To WDNR,

The Lost Lake Community Club, which has been in existence since the 1960s and represents over 200 property owners around Lost Lake, is fully behind the Lost Lake Protection and Rehab District's application for a WI DNR grant for testing and research of the water quality in Lost Lake. In addition, the Community Club would be willing to donate \$1,000.00 for helping fund this research.

We are a lake of volunteers, whether it be at the boat landing doing CBCW inspections, delivering AIS handouts and education, or tending our dam, we believe in helping our lakeshore neighbors. Please consider a grant to help make Lost Lake a better place for property owners as well as the thousands of non-property owners who recreate on the lake every year.

Sincerely,

Jack Peil--President (17th year)  
Lost Lake Community Club
