

HI, I'M CHELSEA.

My family and I moved to St Germain in 2014. Our two kids are now in 6th & 9th grade. My grandparents lived near Park Falls & I spent my entire life, loving every trip to the Northwoods. We picked St Germain for the school district, community & undeniable beauty.

Before moving, I worked in the Oregon School District, primarily as a Special Education Paraprofessional. I also worked with elementary students in general education, assisting with math/reading interventions and managing small groups of students that needed additional support.

After moving to St Germain, I worked for New Horizons Counseling with at-risk youth, families & adults throughout the Tri-County area. There, I worked with individuals & families in Comprehensive Community Services (CCS) & on Coordinated Services Teams (CST) Initiatives. I was a youth and parent mentor. I'm passionate about helping people and have experience collaborating with a broad range of individuals & professionals.

My husband and I own Caged Crow Fabrication, where we build custom trailers & mobile businesses. The business grew rapidly and I eventually transitioned to full-time work there. We're a husband & wife team. I manage the accounting, administration, sales & help build these. For two years in a row, we were nominated by the St Germain Chamber & voted into the top 16 Finalists for the "Coolest Thing Made in Wisconsin" contest by the WMC.

Last year, I added a very part-time & remote position, with a Web3 company, providing community support to a large community of female entrepreneurs, artists & tech developers/coders across the globe.

VOLUNTEER EXPERIENCE: Mission Possibles Run Club Parent Coach, Founder of Operation Senior Smiles, Big Brothers Big Sisters BIG, Senior Meals, Sunday School Teacher & more.

I care about people. I listen. I have no political agenda. I am a person that will listen to every concern, without judgement, and try to find common ground to find the best path forward. Kids first, always. I have a lot of collaboration & professional experience that I can bring to the table. I strive to show everyone the same level of compassion & respect. I believe that every student deserves this.
